# JOHN & GIGI

*at Home*

## *Intro to “John & Gigi at Home – Nature studies” 101*

*All of the furnishings* in this collection are designed and crafted in our upstate New York workshop and studio which was formerly the home of the renown Jerome B. Rice seed co.

*Beauty is in the eye of the ...* art department. All of the pieces in the collection are hand painted, insuring that your piece is truly one of a kind. Colors viewed on monitors may vary from actual product colors.

*Change is inevitable ...* as talented as our Art Department is our design staff is equally ambitious, constantly creating and reinventing our products. All of our designs are original to John & Gigi at Home, so much so that most are copyrighted. We reserve the right to change or discontinue any product without notice.

*Playing by the rules.* All of the pieces in this collection are intended to be used indoors only by children ages three and older, up to 80 lbs. Please decorate responsibly.

*Enduring beauty.* Only the highest quality materials are used to create our products. Solid wood, durable furniture boards, sturdy hardware and child safe finishes are the seed stocks used to produce these heirloom pieces.

*Aging gracefully.* As with all works of art, a little tender loving care is required from time to time. We recommend the use of mild soap and water and a soft cloth to clean our products. Never use any solvents or abrasives.

*Home work,* custom design and fabrication services available.

## *Toad Stool Chair*

*Nestle in among the tall blades of green grass  
atop a toad stool mushroom and ponder,  
what to do today...color or play?*
